No Corrosion

Six stage preparation and FULL HOT DIP IMMERSION in costly zinc gives 10 times better rust protection than the flash electro-galvanising that is associated with many non-European sheds.

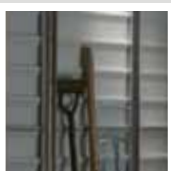

- 01** Lots of headroom
High Gables on all apex roof models provide up to 2.2m headroom with up to 1.8m at the sides!

- 05** Ventilation along roof ridge and eaves
150mm wide ridge cover allows ventilation airflow while preventing rain penetration

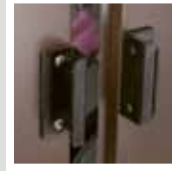

- 09** Strength and good looks!
Strong yet neat looking ribbed wall and roof panels, thicker and harder to help prevent dents, with folded edges for safe assembly

- 02** Robust structure
Interior wall bracing for added strength and protection

- 06** Handles attached with anti-tamper bolts and designed to take a padlock

- 10** Overlapping double sliding doors to keep out rain and snow

- 03** Floor support frame
Option to suit all shed models

- 07** Workgloves included in the carton

- 11** Translucent roof panels for a well lit interior*

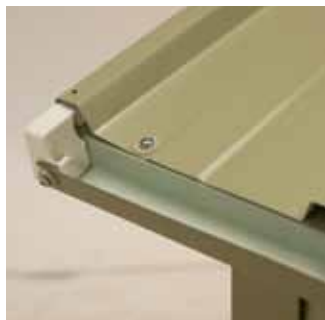

- 04** Roof guttering helps maintain cleaner walls*

- 08** Anchor fixings included

- 12** Rust-free screws

Only YARDMASTER maintenance-free galvanised steel sheds with baked on permanent colour finish give you all this!

- No blistering or cracking
- No splitting due to frost or ice
- No wind-torn roofing felt
- No swelling or warping
- No damage from bugs or pests

So easy to erect

- All parts are numbered clearly
- Well illustrated multi-lingual DIY assembly manual
- Technical assistance via local helplines

So easy to maintain

- No painting
- No preservatives
- No rust proofing
- No maintenance – ever!
